CAREER OBJECTIVE

Motivated and ambitious Software Engineering student at Cardiff University, UK with excellent time management and quick learning abilities. Eager to advance and expand my skills set through targeted mentorship and challenging projects.

TOP PROJECTS

2023

Tic-Tac-Toe WebApp

This project consists of two subprojects:

A RESTful API in Python Language, using Flask framework. I implemented the minimax algorithm to program an unbeatable computer opponent.

<https://github.com/alkindi17/tictactoe-api>

A front End, using React to build the WebApp and Tailwindcss for styling.

<https://github.com/alkindi17/tictactoe>

2022

Interactive Trail

National Software Academy, Cardiff University

Tasked by Newport City Council to create mobile web app for interactive experience of city attractions.

HTML, CSS, JS, Bootstrap, Python, Flask, SQLite3 & DB, External Python & JS libraries (e.g. QR code scanner & generator, password hashing), GitLab, Agile Project Management, Scrum Meetings.

2022

Hackathons

National Software Academy, Cardiff University

Completed two hackathons as part of my Software Engineering course, creating website from user stories in team of 4.

HTML, CSS, Java Script, Bootstrap, Python, Flask server framework, and Git.

COURSES & ACHIEVEMENTS

2022 - 2023

The Complete Web Developer in 2023 Course

Zero to Mastery, Udemy.com

HTML, CSS, JavaScript, Bootstrap5, HTTP/JSON/AJAX, React, Git+Github, Node.js, Express.js, NPM, RESTful API, PostgreSQL, SQL
