CAREER OBJECTIVE

Motivated and ambitious Software Engineering student at Cardiff University, UK with excellent time management and quick learning abilities. Eager to advance and expand my skills set through targeted mentorship and challenging projects.

TOP PROJECTS

2023
Tic-Tac-Toe WebApp

This project consists of two subprojects:

A RESTful API in Python Language, using Flask framework. I implemented the minimax algorithm to program an unbeatable computer opponent.
https://github.com/alkindi17/tictactoe-api

A front End, using React to build the WebApp and Tailwindcss for styling.
https://github.com/alkindi17/tictactoe

2023
On-boarding Checklist Tool
National Software Academy, Cardiff University

Tasked by Bipsync to create a tool to simplify the tasks assignment process for the HR department.

Java, Spring Boot, SQL, MariaDB, HTML, CSS, Bootstrap, JUnit Testing, GitLab, Agile Project Management, Scrum Meetings.

2022
Hackathons
National Software Academy, Cardiff University

Completed two hackathons as part of my Software Engineering course, creating website from user stories in team of 4.

HTML, CSS, Java Script, Bootstrap, Python, Flask server framework, and Git.

COURSES & ACHIEVMENTS

2022 - 2023
The Complete Web Developer in 2023 Course
Zero to Mastery, Udemy.com

HTML, CSS, JavaScript, Bootstrap5, HTTP/JSON/AJAX, React, Git+Github, Node.js, Express.js, NPM, RESTful API, PostgreSQL, SQL

2021
IELTS For UKVI

Overall Band Score: 7.0

2020
Al Nashia Scheme
National Youth Program for Skills Development by Diwan of Rotal Court, Oman.

Out of 15,000 participants, I have been recognised as one of the best 200 participants that have successfully passed all stages of the program.

We were taught basic computer science and Python programming, applied skills in projects, and competed in developing a game and a math quiz app using Python.
